## Key Takeaways: Identifying Technical Assistance Needs and Best Practices

May 9 & 10, 2016  
Portland, OR

## Questions

- What is a best practice you learned from a peer at this event?
  - Are resources available for learning more about this practice?
  - What information is still needed before this practice could be implemented at your agency?
- What resource(s) did you learn about at this event?
  - What are some challenges your agency has in obtaining this or other resources?
  - What could be done to ensure that this resource is more widely known by agency staff?
- What one action will you be undertaking to improve your data capabilities?
  - How will you continue to engage with MPO/DOT partners and leading practitioners from other agencies?
- What is your biggest concern regarding your agency's ability to improve data management and use?
  - How can these concerns be overcome?
